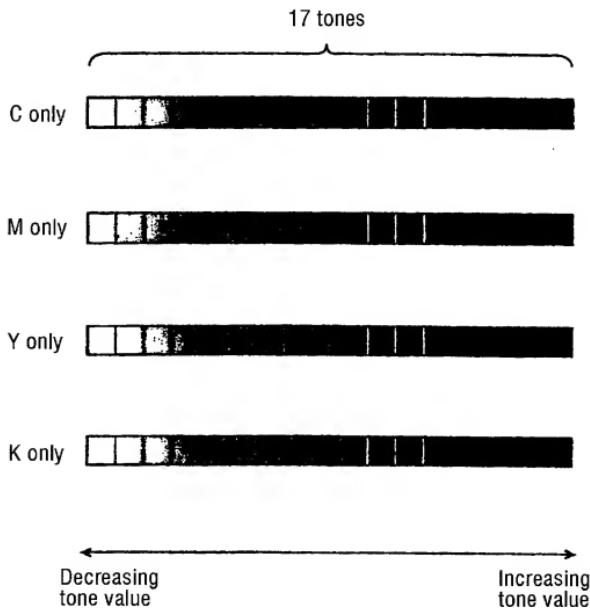

FIG. 8

The diagram illustrates the process of tone value mapping and correction between two printers. It consists of three tables labeled T11, T12, and T13.

Table T11: Standard printer

Tone value	Lightness data (%)
0	94.2
1	
2	
...	
110	42.0
128	40.0
...	
255	26.8

Table T12: User's printer

Tone value (before correction)	Lightness data (%)
0	94.2
16	
32	
...	
128	
255	42.0
...	

Table T13: Corrected tone values

Tone value (before correction)	Tone value (after correction)
0	0
16	
32	
...	
128	110
255	230

Arrows labeled T11, T12, and T13 point from the respective tables to the bottom table, indicating the flow of data from the standard printer, user's printer, and the resulting corrected tone values.
